

If you have a child who is graduating from High School and they are attending college in the fall, you **do not** need to notify the Benefits Department. They may stay on your insurance as long as they are full-time students. Consociates will notify you in the fall and request a Student Status form to be provided from an accredited school. If at any time they change to part-time, drop out, get married, graduate or turn 25, they must come off of your insurance. It is your responsibility to notify Laurie Gulan in the Benefits Department within 31 days of the event should any of these circumstances occurs. If notification is received **after** 31 days of the event, premiums will not be refunded (if applicable).

If your child is graduating from High School and **not** attending college in the fall, they may stay on your insurance until their 19th birthday. At that time, you must notify Laurie Gulan in the Benefits Department to remove them from your insurance. If at any time they decide to go to college and are under the age of 25 and unmarried, you may put them back on your insurance. Proof of Student Status and full-time enrollment at an accredited school must accompany a Medical & Dental Enrollment Form for reenrollment.
